

SafeStor Deliveries to Mainland UK: We're happy to offer free delivery to Mainland UK (some restrictions). All of our deliveries are carried out Monday – Friday. There may be a small carriage cost applicable to postcodes in Central London, Inner London and Outer London.

Highlands, Ireland & Overseas: Carriage charge is dependent on location. The carriage cost will be calculated at the checkout when you enter your shipping address.

Our units are delivered by a 3rd party courier and are packaged unassembled in a stillage, allowing you to simply build the unit yourself. The units are delivered by the courier on a kerb-side basis, and it is the responsibility of the customer to unpack the unit and dispose of all packaging. In the unfortunate event that your item has been damaged during transportation, please advise us within 48 hours where possible.
